

pre-sales support • post-sale integration • second-level technical support

Since 2003, WiseTrend's technical team has helped many ABBYY VARs to win high-margin document conversion projects involving challenging FlexiCapture template development or Recognition Server integration. Contact us at (888) OCR-IT55 and learn how we can help you, too.

GOALS FOR 2010 = INCREASE SALES, INCREASE INTEGRATION SUCCESS, CLOSE MOER BUSINESS

Why Partner with WiseTrend

Our expertise and years of field-tested experience designing OCR and Data Capture systems insure fast turnaround time and total customer satisfaction. We offer:

- Established track record – we are known to be able to handle most complex ABBYY integrations with high rates of success.
- Dedication - over 60% of our integration projects were generated, managed, or lead by ABBYY VARs in 2009. We are looking for even closer relationships in 2010.
- In-depth technical expertise - our team includes ex-ABBYY technologists involved in the development of key ABBYY's products and implementation of the most complex custom document processing projects.

Our Services

Many ABBYY VARs have profitably applied WiseTrend expertise to achieve high design win ration and total customer satisfaction. They partner with WiseTrend to improve:

- Pre-sale Support – when engaged early in the project, WiseTrend can help with:
 - technology demonstrations using a wide range of pre-designed samples or customer-specific image samples
 - timely and complete RFPs and RFQs responses and pricing calculations
 - accurate lists of materials for a detailed Statements of Work
- Post-Sale Integration – delivering complete solution tailored to customer needs by incorporating:
 - all customer requirements per client specifications
 - application specific machine-readable forms and document definitions, connectors, export scripts, and component integration
 - final system setup and pre-production fine-tuning
- Second-level Technical Support – resolving difficult system issues, change requests, and in-field upgrades

SPECIAL OFFER - Free VARs Productivity Package

WiseTrend developed a set of tools for our internal use to simplify our daily activities. These tools were created to speed up project design and improve quality of implementation. Some of these tools are now available to ABBYY VARs at no additional cost. Please send a request to var@wisetrend.com for your free copy.
